

# Master of Science in *Medical Physiology*

## Preparing for Medical School?

This NEW program is ideal for students looking to improve their academic credentials and learn the foundational content of the first-year medical school curriculum.

This program is the only one of its kind in Georgia.

### Key Benefits:

- One-year course-based program.
- Core curriculum in physiology mirrors the learning objectives of first-year medical school.
- Opportunities to engage in medical research and explore career paths in biomedical science.
- Instruction by faculty currently engaged in medical and graduate school teaching.
- Personalized advising for academic support, personal growth, and career development.
- Faculty facilitated workshops for the development of professional school applications.
