

AUGUSTA UNIVERSITY

In 1828, eight ambitious doctors founded a medical academy in the heart of Augusta, Georgia. Little did they know the school they created, now the Medical College of Georgia, would go on to become part of a much larger university. Nor could the Academy of Richmond County founders have foreseen the impact of chartering the state's first junior college, the Junior College of Augusta, in 1925. Today, the legacies of these institutions continue to develop, grow and flourish together, creating a life-saving, life-changing experience.

Augusta University provides a world-class academic and social community that positions students for opportunity and success. As Georgia's innovation center for education, health care and cybersecurity, Augusta University is training the next generation of innovators, leaders and health care providers in classrooms, communities and clinics on four campuses in Augusta and locations across the state.

Augusta University is at the forefront of groundbreaking research focused on improving and enriching the human experience and addressing the challenges of our world. The university's colleges and schools include the state's only public medical school, only dental school and only public academic health center, where our students are creating a safer, healthier and more prosperous Georgia. As the state's designated health sciences center of excellence, we offer students a well-rounded education preparing them for a lifetime of critical thinking, creativity and success.

Students choose Augusta for educational opportunities and experiential learning in fields as diverse as the arts and humanities to the health sciences. Students from undergraduate to post-doctoral levels are mentored and inspired by a world-class faculty that includes prestigious scientists, clinicians, scholars and artists.

Augusta University is the home of the Jaguars' nationally recognized NCAA Division I men's golf team, as well as many men's and women's athletic teams that routinely compete in the NCAA Division II national tournaments.

ACADEMIC REGALIA

The style of academic regalia worn in today's Commencement originated in medieval European universities and has undergone little modification since the 16th century. As in the Middle Ages, the attire denotes the wearer's academic accomplishment. In 1895, a code was adopted to specify design and appropriate colors for various degrees.

The modern dress consists of a gown or robe, headpiece and hood. The gown denotes the wearer's level of education, with the baccalaureate gown being the simplest in design. Usually black, it is distinguished by open, flowing sleeves, which end in a point. The master's gown is similar to the baccalaureate gown except that it has a closed or glove sleeve that is open at the wrist. The doctoral gown is full flowing and has bell-shaped sleeves. It is trimmed with velvet panels down the front and velvet chevrons on the sleeves. While black is still the predominant color, the color of the gown may denote the wearer's university. Augusta University follows the guidelines of the Intercollegiate Regalia Costume Code and has adopted the use of black gowns. The color of the trim denotes the wearer's discipline.

The headpiece in most American universities is a mortarboard. At Augusta University, mortarboards are worn by those attaining bachelor's, master's or specialist degrees while a soft tam is worn by candidates receiving doctoral degrees. The color of the tassel denotes the discipline in which the wearer's degree was earned.

It is the hood that adds meaning to the academic regalia. Changed little since the Middle Ages, the hood is worn falling from the shoulders down the back of the gown in a display of color. It is edged in velvet, which by its color denotes the discipline in which the wearer's degree was earned. It is lined in two colors of silk, which represent the university from which the degree was awarded. The hood lining of Augusta University graduates consists of blue and silver fields with a red saltire cross superimposed.

A partial listing of colors signifying disciplines as standardized in the 1895 Intercollegiate Code includes:

Arts and Letters – white
Commerce and Accounting – drab
Dentistry – lilac
Education – light blue
Kinesiology – sage green
Mathematics – science gold
Medicine – kelly green
Music – pink
Nursing – apricot
Philosophy – dark blue
Psychology – gold
Public Administration – peacock blue
Public Health – salmon pink
Science – golden yellow
Social Science – citron

A braided cord, worn draped from the neck on the front of the gown, designates the wearer as an honor graduate. At Augusta University, honor cords are silver and blue. Members of Phi Kappa Phi, an interdisciplinary honor society, are designated by medallions suspended from the neck by ribbon and bearing the society's insignia. Some disciplines may have their own honor society, which distinguishes its honor graduates the same way. Normally, the color of the ribbon is unique to the honor society.

THE AUGUSTA ARSENAL BELL

The Augusta Arsenal Bell was cast a century ago – in 1918 – by the famous Meneely and Company, a foundry in West Troy, New York. The bell was part of the U.S. Arsenal property acquired by the Junior College of Augusta in 1955. Many historic Arsenal structures, like Bellevue Hall and the Benet House, still stand today and serve as administrative offices on the Summerville Campus. The Augusta Arsenal Bell weighs 586 pounds and is topped by a hand-crafted wooden cap with an inset of the Arsenal Oak. This miniature version of the storied Oak was created using wood from the original tree. The bell was refurbished and capped by the skilled craftsmen in Facilities at Augusta University.

Bells peal at colleges, statehouses, churches, and corporate buildings throughout the U.S. and other countries. They ring for many reasons, and more commonly signal the time of day or announce the start of special occasions and celebrations. The Augusta Arsenal Bell is rung to begin the Commencement Ceremony and as it concludes. The bell and bell tower are part of the modern Augusta University brand, and the Arsenal Bell is part of its history. The ringing of the bell marks a resounding celebration of Augusta University’s past, present, and future.

THE PRESIDENT’S MEDALLION AND CHAIN OF OFFICE

President Russell T. Keen is wearing a medallion and chain of office during today’s Commencement Ceremony. The medallion is a symbol of the Office of the President. The chain of office refers to the authority granted to the president by the University System of Georgia Board of Regents to confer degrees and lead the university.

The President’s Medallion

The President’s Medallion of Augusta University is a finely detailed silver medallion that hangs from the Chain of Office. Approximately three inches in diameter, it features the university’s name and the date of its founding, 1828. Oak leaves are used on either side of the founding date and symbolize strength, endurance, eternity and honor. Above the date is the Latin phrase *Vivere Discere*, which means “live to learn.”

Appearing on the shield are four images: the Arsenal Oak, the Lamp of Knowledge, the Rod of Asclepius, and the old Medical College of Georgia building. Atop the shield is the Unity Flame, an element representing the university.

In a circle surrounding the shield are words incorporated in the Vision Statement of Augusta University that denote the university as a destination of choice in health, innovation, discovery, creativity, and education.

The Chain of Office

The Augusta University Chain of Office symbolizes the authority vested in the Office of the President by the University System of Georgia Board of Regents. The 3-D sculpted medallions pay homage to the history of the Summerville and Health Sciences campuses and merge together at the presidential stone. The presidential stone is turquoise, and its color is representative of President Russell T. Keen’s discipline of education. The stone also represents the president’s role in uniting the legacy institutions.

THE UNIVERSITY MACE

A mace is a symbol used to communicate and to designate authority. The era in which the mace came into use is not known, but the first recorded use was during the Middle Ages when maces, made wholly or partly of metal and often spiked, were used for breaking armor. Medieval bishops, who were forbidden to shed blood, carried maces instead of swords. Gradually, maces became ceremonial and were used symbolically as protection for the king. The use of maces extended into America by the middle of the 18th century, and they now are used principally in universities as traditional symbols of the authority of the president.

The Augusta University mace was designed and hand-carved in the spring of 2016. The mace features two medallions. The first represents the official Augusta University seal, and the other represents the seal of Georgia.

The mace and handcrafted wooden seal are made possible through a gift from the foundations.
