

EH&S LABORATORY SAFETY VIDEOS

Rev. 11/02 [..lists\LabSftyVideos1102.lst]

The EH&S Division has accumulated nearly 30 safety videos in its library, most of which are appropriate for laboratory training. To borrow one of the videos call ext. 1-2663.

01	Assessing Risks of Toxic Materials		11m
02	Centrifugation hazards	Centrifuge operating safety	9m
03	Chemical Hazards	Basic hazard information	10m
04	Chemical Safety I: Proper Handling	Chemical handling practices	20m
05	Chemical Safety II: Health Hazards	Hazard types discussion	20m
06	Chemical Safety III: Fire & Explosion	Unstable chemicals	20m
07	Chemical Safety in the Laboratory	Basic practices	22m
08	Chemical Storage Hazards	Compatibility, segregation, storage	11m
09	Controlling Risks: HIV in the Research Lab	Personal protection against HIV	28m
10	Emergency Response	How to care for a victim	12m
11	Glassware Washing hazards	Safety tips	10m
12	Hazardous Materials Training	Mike Baker & Associates	120m
13	Health Hazards		12m
14	Lab Safety/Head Protection/Hunting Safety	Lab precautions	19m
15	Laboratory Hoods (& 11 other titles)		20m
16	Mammalian Cell Culture Hazards		9m
17	Play It Safe in the Lab	Glassware precautions	25m
18	Practicing Safe Science	Good lab practices	30m
19	Chemical Resistance of gloves	Choosing proper gloves (vendor)	19m
20	Radiation Effects/Rad Accident Response		58m
21	Radionuclide Hazards	Basic information	12m
22	Review of Biosafety Cabinets	Baker training	30m
23	Safe Handling of Biohazards		8m
24	Safety, Isn't It Worth It? (& 11 other titles)	Jack Klugman narration in lab setting	22m
25	Safety Handling of Cytotoxic Materials	Safety precautions	10m
26	The Lab Standard & Employee Compliance	Employee compliance issues	17m
27	Understanding the MSDS	Use explanation of MSDS	15m
28	What Do You Know About AIDS?	TV Special Documentary	120m
